This architectural floor plan shows a long, narrow building layout. The central section is a long corridor or hall, labeled 'PV' in the middle, which contains eight vertical rectangular panels. To the left and right of this central section are two large, square rooms. Each of these side rooms contains two square windows. The entire building is surrounded by a green lawn area, indicated by a green stippled pattern. A small staircase is visible at the bottom left corner of the plan.

[illegible]
